As Rhinebeck’s students seek to expand their horizons in the direction of their dreams, their journey along the yellow brick road of learning has been made that much brighter thanks to the involvement of the Rhinebeck Science Foundation (RSF) in supporting their critical Science, Technology, Engineering, the Arts and Math (STEAM) education.

Rather than an ivory tower, RSF has sought to provide an Emerald City of possibility to students by increasing their access to resources and programs that bridge the gap between traditional learning and enlightened education, allowing them to grow in ways that might otherwise be unimaginable. And most important, none of this would’ve been possible without the vital support of generous donors like you.

Here are just some of the ways your support is enabling RSF to help Rhinebeck’s students from the earliest grades through high school:

- Thanks to RSF’s work in collaboration with the Education Network for Teachers & Artists (ENTA), Rhinebeck Kindergarten students will have the chance to engage with local artists in order to creatively learn about animals and habitats.
- A refreshed and redesigned Project Lead The Way Lab will incorporate new technologies for enhanced learning at Bulkeley Middle School.
- Another ENTA collaboration will allow Rhinebeck High School art students to learn about human anatomy through figurative drawing.

These programs and many more would simply not have been possible without the vital support of people like you. You provide the difference that can help elevate our students’ education over the rainbow and beyond.

Here are a few of the great and powerful ways you can help:

- Become a Celebration Sponsor - see the benefits of sponsorship on the next page
- Donate to our Silent Auction
- Make an In-kind Donation to the Celebration

Services of all kinds are needed to produce our Spring Celebration
